

You'll feel more energetic by breathing continuous fresh air

We at MC Building, Inc. truly care  
So our homes are always filled with volumes of fresh air  
As we are quite aware  
The importance of superior indoor air  
It's significant for us to build with a healthy tilt  
To involve valuable new home innovations to the hilt

So enjoy countless breaths of endless fresh air  
As we work to achieve our goal to bring you continued healthy living  
Our homes benefit from the engineers at Build Equinox & Yes in planning  
And designing a heating, cooling and fresh air ventilating  
System to be the most efficient covering all important HVAC roles  
Like featuring innovative online control  
Monitoring improved ventilation through energy recovery  
Through proficient air delivery  
Bringing many air exchanges per hour  
Outside air enters in through ducts that connect the heat pump exchanger core  
And this vital device provides more  
Controlled thermal comfort  
We do enjoy probing products with a pioneering flare  
To bring to our clients superior fresh indoor air  
We welcome all to compare  
After all we invest plenty of time to prepare

We place a conscience effort in our building to create opportunities  
Of homes loaded with amenities  
To receive a generous wealth of health  
Enabling the occupants to breathe a deep heap of fresh air  
You never knew such a normal activity could be so enthusiastic  
Thanks to all the collected knowledge of ecstatic  
Engineers, entrepreneurs, inventors and designers  
That another custom home will be built with a healthy tilt  
As we feature quality building products to the hilt
